2020 Community Impact Grant - Community Programs and Projects Application for Grant Funding

The grant program under which your organization is applying has specific eligibility requirements. The Application Form should clearly show how the proposed program or project meets these requirements. The Application Form, including all required attachments, must be received by the closing date. Late or incomplete applications will not be processed (Community Investment Program Policy FIN-220, Section 3.1.5).

In order to complete this application for funding, please read the following thoroughly:

- 2020 Community Impact Grant Guidelines
- 2020 Community Impact Grant Community Programs & Projects Application Checklist

If you have reviewed the 2020 Community Impact Grant Guidelines and have any questions regarding this application form or eligibility, please contact CIP@rmwb.ca.

Community Programs and Projects Part B - Board Questionnaire

- 5. How often does the Board review the financial position of the agency? What efforts have been made in the past fiscal year to increase the number and types of financial support for your organization? The Nunee Health Board of Directors review the financial statements quarterly, and as required. The financial audit is also reviewed twice annually. Once with the financial auditor (MLP), and again at the Nunee community AGM. The health director manages the financial budget, and follows up with the board for review and approval if there's any capital expenditures or expenses over \$5,000.
- 6. Organization's most recent Fiscal Year End date (YYYY-MM-DD)
 2019-03-30

 Unrestricted
 net assets from your Financial Statements ending 2019-03-30
 3,167,091

 (Accumulated surplus that the Board has not set aside for a particular purpose)
 6,623,914
- 7. Does your organization have financial reserves greater than the last fiscal year's operating expenses? If so, explain why.

Nunee Health Board Societies (NHBS) financial reserves were \$367,507, over the operating budget. NHBS's financial agreement with indigenous services Canada is spread over a five year period. Currently, Nunee is entering year two of that agreement. All excess monies can be rolled over into the following year, as long as their spent by the end of the five-year agreement.

8. What are the restrictions (if any) on becoming a member of your organization <u>and/or</u> participating in programs or services?

NHBS offers programs to everyone. Specific program requirements exist to ensure that clients are accessing appropriate services, at the right time for the right reason. An example of this is the Prenatal program. All pregnant and expecting mothers are eligible to participate in program activities and services until the child is two years of age.

9. Minimum number of board members according to bylaws: 6 Number of board members: Currently: 6 2018 6 2017 6

How often does the Board of Directors meet? liarterly board meetings, AGM annually, SBM as require

10. Please list your current Board of Directors:

| Please list your current Board of L | Directors: | |

l

16. What objective(s) of the Community Program and Projects stream does this program or project address? (Check all that apply)

☑ To provide a program or project that enhances leisure, cultural, recreational opportunities and/or

- To support the design and delivery of preventive social service programs that promote and enhance the well-being of individuals, families and communities;
- To promote programs or projects that address, as directly as possible, any one of the 94 Calls to Action in the Truth and Reconciliation Commission report;
- ☑ To promote and support community capacity and economic growth;
- ☑ To facilitate and promote investment in local projects by residents;
- To enrich the cultural landscape of the Municipality; and/or
- ☑ To create/maintain a program for recruiting, training and using volunteers.
- 17. Describe, <u>in detail</u>, how the program or project will meet and address <u>each</u> objective selected above. (additional space continues on next page)

If the Calls to Action objective is selected, please identify the Call to Action and include the following:

- a. How the Call to Action will be addressed by the activities of the program project;
- b. How the activities promote healing, language and/or cultural restoration; and
- c. How the Indigenous community is involved in the planning, execution, participation or follow up to the program or project.

There are a number of calls to Action in the Truth and Reconciliation Commission report that these events will address.

We address Call to Action # 14: we call upon the federal government to enact an Aboriginal Languages Act that incorporates the following principles:

iv. The preservation, revitalization, and strengthening of Aboriginal languages and cultures are best managed by Aboriginal people and communities.

v. Funding for Aboriginal language initiatives must reflect the diversity of Aboriginal languages

We address Call to Action #19: We call upon the federal government, in consultation with Aboriginal peoples, to establish measurable goals to identify and close the gaps in health outcomes Calls to Action 3 between Aboriginal and non-Aboriginal communities, and to publish annual progress reports and assess long-term trends. Such efforts would focus on indicators such as: infant mortality, maternal health, suicide, mental health, addictions, life expectancy, birth rates, infant and child health issues, chronic diseases, illness and injury incidence, and the availability of appropriate health services.

We address Call to Action # 88: we call upon all levels of government to take action to ensure long-term Aboriginal athlete development and growth, and continued support for the North American Indigenous Games, including funding to host the games and for provincial and territorial team preparation and travel

We address call to action #14 as several of our events proposed will include Elders speaking and teaching in their native tongue. Although Language is not one of the objective of these events, youth and community members will be exposed in a natural way to Cree and Dene languages. Language will be revitalized and strengthened the more it is used during community events.

We address call to action # 19 by incorporating culture and spirituality into health service delivery to help reduce the alarming increase of health disparities in Indigenous communities. We believe cultural awareness retreats, traditional medicine gathering, and traditional art will improve the wellbeing of residents and bring them closer together. In addition, NHBS employees will be a part of these events fostering connections between residents and health service providers. Some traditional teachings will include topics such as maternal health, mental health, and suicide prevention. Having the community come together to participate in traditional events will inevitably promote healing and cultural restoration.

17. (Continued from previous page)

We address call #88 by funding hand games and traditional games for all ages in the community of Fort Chipewyan. This will contribute to Aboriginal athlete development and growth. This will allow for Traditional games to be brought back into the community. The purchasing of sporting gear and creation of teams will allow the traditional games to continue on past the funding period creating sustainability in the community.

- 1. Medicine Making and Harvesting: Age 16 and above
- 2. Cultural Awareness Retreat for Men and Women: Age 18 and above
- 3. Traditional Arts Program Age 7 to 13 years of age
- 4. Hand Games and Traditional Games: All ages
- 5. Birch Bark Crafts: age 15 and above
- 6. Traditional Knowledge Sharing Sessions/Workshops: age 15 and above
- 18. How many participants are expected to benefit from the program or project? Please identify them in the table below.

| Ages 0 - 3: | | Adults: | 100 |
|---------------|----|-----------|-----|
| Ages 3 - 5: | | Seniors: | 100 |
| Ages 5 - 12: | 40 | Families: | 100 |
| Ages 12 - 18: | 40 | | |

19. What is the community need that the program or project will address?

These activities will address the need for health services delivery to be tied more closely to culture and the spiritual dimension of health. Traditional ways of knowing about health are often oral. These activities provide opportunities for dissemination of knowledge to future generations. Community members can also come together for sober activities that will enhance capacity within themselves and build new and healthy relationships that can be continued outside of these activities. Education on traditional hunting, harvesting and preserving will also be beneficial for addressing community issues such as food security.

20. How was the need determined?

Community needs in Fort Chipewyan are commonly determined from Elders as well as those working in health service delivery in the community. Elder sharing circles are hosted to provide Elders with opportunities to express thoughts, concerns and suggestions for the community. The events that are listed in this application were identified needs with this group.

Recognition that not all community members, especially youth, have had opportunities to learn and practice traditional ways of being.

REGIONAL MUNICIPALITY

21. How will the program or project address this need?

Intergenerational teachings with Elders and youth will revitalize and strengthen culture, language and spirituality in the community.

Traditional medicine making has been lost through colonialism; these events will bring traditional medicine teachings back into community.

Western supports such as mental health therapists and nurses have been in community to help combat several of the health disparities including mental health, substance use disorder, maternal health and chronic diseases, however, Indigenous perspectives on these issues are seldom taken into account.

Providing Indigenous residents with opportunities to enhance their social connectedness and knowledge about traditional ways of healing will build self-efficacy in residents and the community to want to take control of their health and healing.

22. What will be the positive impacts to the community?

Social connectedness among residents, which has been shown to improve health outcomes.

Culture and language restoration in community

Colonialism had a profound impact on the health of Indigenous people; these events will help to restore culture, spirituality, and ways of knowing into the Indigenous model of health.

Providing opportunity for traditional sport for all ages

Provide opportunity for hunting and gathering to help the Fort Chipewyan food infrastructure.

Part of the CPP Stream is funded through a partnership with the Government of Alberta to provide support for the design and delivery of preventative social services programs that promote and enhance the wellbeing of individuals, families and communities.

To determine if the program, project or service meets the Family and Community Support Services (FCSS) program outcomes of Prevention, Local Autonomy, Volunteerism, Accountability, and Community Development, please answer the following:

23. Is the program, project or service preventative in nature? Does it enhance the social wellbeing of families and individuals? Does it have preventative social outcomes? If yes, please explain. If no, leave blank.

We address call to action #14 as several of our events proposed will include Elders speaking and teaching in their native tongue. Although Language is not one of the objective of these events, youth and community members will be exposed in a natural way to Cree and Dene languages. Language will be revitalized and strengthened the more it is used during community events.

We address call to action # 19 by incorporating culture and spirituality into health service delivery to help reduce the alarming increase of health disparities in Indigenous communities. We believe cultural awareness retreats, traditional medicine gathering, and traditional art will improve the wellbeing of residents and bring them closer together. In addition, NHBS employees will be a part of these events fostering connections between residents and health service providers. Some traditional teachings will include topics such as maternal health, mental health, and suicide prevention. Having the community come together to participate in traditional events will inevitably promote healing and cultural restoration.

We address call #88 by funding hand games and traditional games for all ages in the community of Fort Chipewyan. This will contribute to Aboriginal athlete development and growth. This will allow for Traditional games to be brought back into the community. The purchasing of sporting gear and creation of teams will allow the traditional games to continue on past the funding period creating sustainability in the community.

c. As this grant will be held by NHBS, every step of planning, execution, participation and follow up will involve community. A goal is to create sustainability of these events past the funding period within the community.

24. Does the program, project or service:

- Help people develop independence, strengthen coping skills and become more resistant to crisis?
 - Yes 🗹 🛛 No 🗖
- Help people develop an awareness of social needs?
 - Yes 🗆 No 🗆
- Help develop interpersonal and group skills which enhance constructive relationships among people? Yes D No D
- Help people and communities to assume responsibility for decisions and actions which affect them? Yes D No D
- Provide supports that help sustain people as active members of the community? Yes D No D

- 25. Is the program, project or service:
 - Primarily a recreation, leisure, entertainment or sporting activity or event?

Yes 🗆 No 🗆

- Offering direct assistance, including money, food, clothing or shelter, to sustain an individual or family? Yes D No D
- Primarily rehabilitative, therapeutic or crisis management?

Yes 🗆 🛛 No 🗆

- A duplication of services provided by any level of government?

Yes 🛛 🛛 No 🗆

- A capital expenditure such as the purchase, construction or renovation of a building or facility? Yes D No D

26. What does/will a successful program or project look like?

Success can be measured through the feedback provided by community members, and the opportunities for future growth that are created through openly sharing areas for development and improvement. Quality feedback to ensure that community members are interested and see value in the culture we are trying to create. Furthermore, collaboration with agencies looking to partner with NHBS to support this recognition demonstrates success through the value that is placed on ensuring successful delivery of these activities.

27. How will the program or project's success be measured (e.g., surveys, evaluation, longitudinal studies)?

NHBS provides surveys to all participants at the close of each event. Staff also enter all program and activity plans into an electronic documentation system prior to the event. Managers review, provide input and approval in advance of service delivery. Staff also document post event on their observations, outcomes, successes and areas for improvement. This helps leadership with reporting on outcomes and ensuring ongoing quality improvement in service delivery. Reporting can also be easily shared with funding bodies, to be duplicated by other communities wanting to offer these services.

28. Does the program or project duplicate or overlap with other programs or projects offered in the community? How is this organization's program or project unique?

NHBS 's 2019-2023 strategic plan strives to imbed traditional knowledge, culture and land-based activities into health programming. This direction focuses on providing care through a trauma-informed lens that will better address difficult issues such as domestic violence, sexual assault and suicide. The recognition of the importance of this knowledge in health service delivery will build trust and improve integration with other cultural events and services offered in Fort Chipewyan. Athabasca Chipewyan First Nation, Mikisew Cree First Nation and Metis Local #125 provide opportunities for Indigenous and cultural information to be shared.

NHBS has the opportunity to demonstrate how some of these great traditions and activities can be integrated with health services viewed through a lens that recognizes and focuses on the healing of mind, body and spirit.

29. How will the program or project be promoted/advertised?

(Successful programs or projects shall state "Funding considerations provided by the Regional Municipality of Wood Buffalo" on all print and digital advertisements and <u>shall not</u> use the Municipal logo.

NHBS utilizes the Nunee website, Facebook, and print resources such as the monthly newsletter and posters to reach out to Fort Chipewyan residents. NHBS also requires the NHBS board, staff, and local community partners to disseminate information through word of mouth.

30. The Community Programs and Projects stream is intended to promote an allied social profit sector within the Municipality. What other community groups or organization will be involved in the program or project?

- a. List each community group or organization; and
- b. Define each community group or organization's role.

Athabasca Delta Community School Principal and teachers assist with planning, organization and implementation of programs and services as required. Chaperone/Facilitator Role

MCFN Youth and Elders Lodge Provide space for activities. Ensure all MCFN members are provided information, knowledge and access to actively participate in programming. Youth and Elders coordinator, participated in planning and implementation of programs and services as required. Facilitator

Respite Suppor Worker Role

RMWB – Fort Chipewyan Collaborate to ensure multi-sectoral involvement in all programs/services. - Advocate

MCFN Elders Lodge Provide space for elder and youth focused activities. Ensure elders are provided information and knowledge to actively participate in programming. Staff participate in planning and implementation of programs and services as required. Respite Worker Role Facilitator Role

31. The Community Programs and Projects stream is intended to promote public/volunteer participation in the planning, delivering and governing of community programs and projects. How will volunteers be involved in the proposed program or project?

NHBS health programs and services are community driven. NHBS 's board of directors represents the individual and community needs of their organizations, to ensure that service delivery meets the community 's diverse needs. NHBS also hosts an elders advisory group, and community focus groups on identified health needs, in efforts to close service delivery gaps. Quality improvement measures, such as community satisfaction surveys are also provided at the end of all activities to insure ongoing process improvement.

32. The CPP stream requires at least one other source of funding (e.g., monetary donations or grants, sponsorships, significant in-kind contributions, etc.) aside from the Community Impact Grant. Describe any other funding initiatives the organization has taken or is planning to implement to support this requirement.

NHBS provides health services in the Fort Chipewyan area, with the support of financial federal contributions from Indigenous Services Canada and provincial contributions from Alberta Health Services. The funding currently provided by these organizations support essential services required by provincial and federal government agencies. Unfortunately, many cultural and land-based programs that are fundamental to first nations and metis health are not recognized as essential services, and thus not funded by these entities. NHBS requires collaboration with community-based organizations, community members and grants to support the development and implementation of these services.

33. Outline any expected in-kind contributions for this program or project:

Event Space at Nunee Health Centre - In Kind (NHBS) Staff time - donated by NHBS Event Space at Elders Lodge - In Kind (MCFN) Event Space at Youth and Elders Lodge In Kind (MCFN) Athabasca Delta Community School - Teachers donating time (In Kind)

Program or Project Budget

- 34. a) Please be advised that although your organization's fiscal year may not run January December, that is the funding period of the Community Impact Grant. The following content must only relate to the period of January 1 - December 31, 2020.
 - b) Please include all anticipated sources of revenue for the program or project and whether or not it is in progress (applied for but not yet confirmed) or secured (confirmed).
 - c) Please list all sources of funding separately and name the sources in the space provided.

d) Do not include this grant application as a source of revenue.

| | Revenue | Revenue Status | |
|--|---------------------|----------------|---------|
| Source of Projected Income | Jan - Dec 2020 | In Progress | Secured |

| Sponsorship from: | | | |
| Other: | | | |
| Total (A) | \$ 0.00 | | |

35. Please be advised that regardless of the organization's fiscal year, the funding period of the Community Impact Grant is January to December. As such, the following content must:

Include only expenses related to the program or project contained in this grant request; and Only include anticipated expenses to be incurred from January to December 2020. .

Please include all of the expense related to this program or project, even if it is fully funded by other funders.

Column 1 shall contain all of the types of expenses for the program or project, even if not part of the grant request.

Column 2 shall contain only the portion of the expense being applied for from the Community Impact Grant. The total of Column 2 must match the Total Grant Request and cannot be greater than \$100,000.

Column 3 shall contain only the portion of the expense being funded through other sources of funding.

Column 4 is automatically calculated and should total the entire anticipated cost of the program or project.
