

**\$ 150,000**

## 73 - Recreation Services

The neighborhood of Prairie Creek was built in the 1990s and was not a part of the development standards. A multi-use trail around the community will provide recreational opportunities and allow access to the trail networks. The proposed design study will clearly identify community needs through public engagement and determine the next steps of best value. The function and use of the perimeter trail will provide similar standards found in the newer developments. The consequences of not having this design will result in not sufficiently supporting public interests and assessments for the proper construction scope.

Year	Total Annual Cost	Federal Grant	Provincial Grant	Reserve	Other
2021 & Prior	-				
2022	150,000				
2023	-
